CALISTOGA™

The Calistoga collection captures the beauty of weathered barn wood, incorporating layers of paint and patina naturally worn by the elements. These color tones enhance the grain and texture fortifying an authentic look of reclaimed wood, which has seen great popularity and use in furniture, home accessories, and interior design.

Calistoga is a refined rustic collection, with a tailored surface that is coarse but balanced, providing texture, warmth and substantiality into every design. This makes the collection a worthy choice for framing both natural subjects and more technical or modern subjects such as architecture, abstracts, decorative art, and photography.

◀ Stack & Customize

Calistoga's neutral palette allows you to create stacked combinations that increase your framing solutions and take your design to another level.

Shown on left: 84022, grey (7/8, 1 1/16" rabbit) on top of 84029, dark walnut (2 3/4" width)
