# LUXE

COLLECTION

Luxe is a new collection of eight items with the soft brilliance of brushed bronze on geometric profiles.

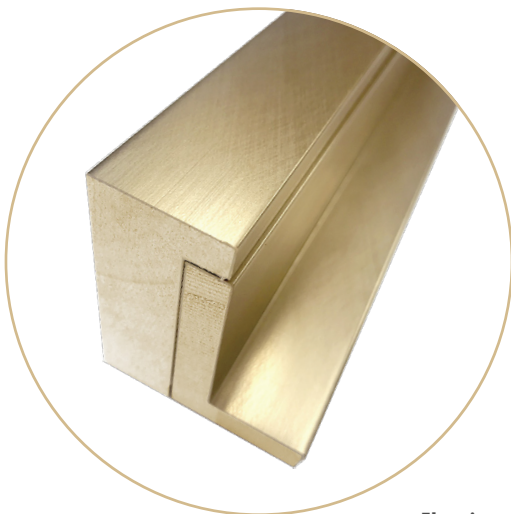

Ranging in size from the 3-inch wide panel (84394), to the 3/4" square profile of 84393, Luxe provides a bounty of picture framing options for different sizes and more importantly, different types of art. A deep shadowbox (84389) touts a 2" depth rabbet which accommodates a wide range of three dimensional applications as well as the deepest of canvas works. Luxe's floater is a 1 5/8" deep profile, which also can be used for most stretcher depths used today.

The diffused luster is delivered by the crosshatched brushed texture upon on the bronze base, which gives Luxe a warm, glamorous glow. The new hue is highly popular in today's interior design market, and can be seen used in home accessories, lighting, appliances, cabinet and door hardware, and more.

With its contemporary style, the collection is terrific for modern art, photography, and transitional art genres. Vintage-modern genres such as etchings, lithographs and prints are elevated by the delicate lustrous finish and bronze lends warmth to monochromatic pieces while working well with most color compositions.

### Floating a Big Idea >

Luxe's deep shadow box profile (84389) is perfectly matched to nest the tall 2" floater of the collection (84400). This stunning combo creates more of a presence for works on canvas and creates a great picture framing solutions for those larger pieces in need of a grand statement.
