84355 • 2 1/4" oak veneer, 1/2" rabbet

84352 • 1 1/2" oak veneer, 9/16" rabbet

84353 • 7/8" oak veneer, 1" rabbet

84354 • 3/4" oak veneer, 9/16" rabbet

OAK | Nouveau

The Oak Nouveau Collection brings warmth to modern profiles with natural oak veneer, evoking eco-friendly sentiments of a current and popular trend in furniture.

Oak Nouveau's beauty is cast on flat profiles, where patterns of open wood grain are best displayed. The 2 1/4" wide (84355), and 1 1/2" profile (84352), brings to mind classic craftsman style woodwork, where shared characteristics of organic simplicity, nature, warmth, and strength are embraced. The 7/8" profile (84353), in addition to being used for smaller projects, has a rabbet depth of 1", allowing it to be an outside stacking element to 84355 and 84352 for an added architectural detail to any project.

With its clean lines and warm tones, this collection is well-suited for artwork such as drawings, photography, watercolors, lithography, and other pieces where simplicity, nature, and form are the focus. It is also a great picture framing solution for unifying a collection in a setting, such as creating a composition of pieces for a gallery wall or when displaying a series of works.

◁ Group Effort

For an added touch, stacking 84353 on the outside edge of 84355 or 84352 is a great way to add visual interest, enhancing the geometric lines of the collection while adding scale and width for larger pieces.
